### DESCRIPTION

This flexible, three-family townhouse will be delivered vacant and ready to be reimaged into a single-family home or an updated version of the current configuration. This townhouse is the perfect candidate to create a live-with-income scenario. The three units include: a one-bedroom floor-through and two duplexes with double-height ceilings in the main rooms. A unique offering of this townhouse is the Street Level/Garden duplex that is commercially zoned and has the potential to be used as office space.

Once dubbed “an anonymous neighborhood with fringe benefits,” Kips Bay continues to offer luxury, character, and convenience. The townhouse is located a short walk from the 6 Train, diverse restaurants, and larger commercial stores.

### LAYOUT

#### Garden Level (Duplex I):

Configured as part of a two-bedroom duplex unit, the garden level contains a spacious front bedroom, full bathroom, L-shaped kitchen, and bi-level great room. The great room is open to the floor above and receives spectacular sunlight from a wall of windows and a glass door, which lead to a private triple-level garden.

#### Street Level (Duplex I):

The main townhouse vestibule has a staircase to the upper floor apartments and is also the entry point to Duplex I. The front door opens to reveal soaring ceilings and a sitting area overlooking a sunken, bi-level great room. The remainder of this level is occupied by a large bedroom with an ensuite bath.

#### Parlour Floor (Floor Through):

The parlour floor has a delightful, sunny one bedroom, floor-through apartment. It features a front facing living room with three windows, exposed brick walls, a large brick mantelpiece and hearth, and original parquet floors.
